### Celebrate the Milestone in ACSE History

President Speech in ACSE 15th Annual Conference and Symposium on  
“Strengthen Sino-US Science, Technology and Culture Exchange;  
Promote Civilization and Harmonious Development in the Society”  
October 7, 2007

Distinguished guests, ACSE members, ladies and gentlemen:

Good morning. On behalf of the Association of Chinese Scientists and Engineers – USA, I welcome you to the ACSE 15th Annual Conference and Symposium on “Strengthen Sino-US Science, Technology and Culture Exchange; Promote Civilization and Harmonious Development in the Society”. First, let me thank all our honored guests and great speakers, both from China and the United States. Your attendance and contribution will make our conference a great success. Let me also take this opportunity to express my gratitude to the past and present ACSE leaders and members. It is your hard work, dedication and contribution that have made ACSE such a great organization and to have achieved what it has.

15 years ago, a group of visionary people founded ACSE on the principle of “Cooperate, Develop and Contribute”. This year ACSE is just 15 years young entering its prime time age. It is a new milestone in ACSE history. Through all our hard work and with the help from all our members, ACSE has achieved a great deal in the following areas in the past year.

(1) ACSE 15th Anniversary Brochure: The printing and publication of ACSE 15th Anniversary Brochure is a milestone in ACSE history. This brochure collected all the important materials in its past 15 years together and is the most important publication since ACSE was founded. The brochure was elegantly printed in large quantity and will be used in the next five years until ACSE 20th anniversary to promote ACSE all around. This great achievement is attributed to the hard work of Kezhun Li, Tianyu Xiong, Gentai Wang, Haibo Guo, Wenqi Luan, Boke Zhang, Chunming Fan and many others, also thanks a lot for the great sponsorship of Tianyu Xiong and his company.

(2) ACSE 2007 China Delegation and Beijing Reception: To celebrate the ACSE 15th anniversary, this past June, ACSE organized a big high level delegation group to China, which consisted of 20 high profile professionals in extensive technical, research, teaching and management fields. This delegation group visited Wuhan, Xian, Shijiazhuang and Beijing, and attended several important events and visited some famous universities and important government agencies. While in Beijing, ACSE held a big reception event with over 100 honored guests and journalists attending. Through these activities, ACSE effectively promoted its publicity and reputation in China. We would like to express our sincere appreciation to the great support from the Overseas Chinese Affairs Office of the State Council, and also thanks a lot for the great work of Tianyu Xiong, Gentai Wang, Wenqi Luan, Kezhun Li, Wei Xu, Zhi Wang and many others.

(3) ACSE Fund Raising: This year, ACSE has made a tremendous success in signing on new corporation sponsorships. Besides our tradition sponsors like Motorola and BP, Prudential is starting to offer ACSE a big sponsorship to support ACSE events, which may fundamentally change the financial status of ACSE and bring ACSE from “struggle for living” to very strong financial stability. A special thanks to Wang Jian for this Prudential-ACSE sponsorship program, and we will setup a new Fund Management Committee to make sure that the program will keep running actively. Again, many thanks to all our generous sponsors, such as Consulate General of People’s Republic of China in Chicago, Prudential, Motorola, BP, China Star Media and Abbott laboratories. Thanks also go to our great team led by Xiao Xu, Yonggang Yuan, Tao Zhou, Wang Jian, and Zhiguang Yu. Furthermore, this year, several ACSE members made a donation to become a lifetime member, they are Yisun Cheng, Boke Zhang, Xiaohong Xu, Gentai Wang, Kezhun Li and Chunlai Yang.

(4) Social Activities: Same as before, ACSE hosted two very successful social events this year: Chinese New Year party and ACSE annual picnic. For the Chinese New Year Party, we invited the seven largest alumni associations to co-host the event with ACSE, which further enhanced the cooperation between ACSE and other professional associations. As for the summer picnic more than 300 people showed up. It has become one of the largest picnic events in Chicago area. Xiangdong Xu, Kui Chen, Xiaodong Huang, Chunming Fan, Rui Yin, Kun Liang, Zhipeng Hao, Zhiguang Yu, Gentai Wang, Yue Zhang, Yu Zhang, Qingxia Liu, Xian Zhang, Wenqi Luan, Kezhun Li, Jie Xie, Todd Zhou, Hong Jiang, Lubo Zhou and many others from our great teams deserve special praise for their hard work.

(5) Local community services: As the largest Chinese professional association in the greater Chicago area, we feel we are obliged to serve our local communities. This year, ACSE co-sponsored the US-China Forum with the China Star Media. ACSE was also actively involved in many events organized by other Chicago local associations. Thanks a lot for the trust and recommendation from our local communities, as the president of ACSE, I made several speeches in some important events in the Chicago area. ACSE's participation and contribution on these events not only helped a lot the local communities, but also increased the publicity and exposure of ACSE. ACSE has become one of the most active associations in Chicago land. Key ACSE leaders at these events are: Kui Chen, Haibo Guo, Xiaodong Huang, Kun Liang, Yue Zhang, Kezhun Li, Zhipeng Hao, Yinsong Li, Qingxia Liu, Wenqi Luan, Xiao Xu, and Hong Jiang.

(6) Science and Technology Exchange: Besides the 15th anniversary China delegation in June, ACSE also organize some other events to promote Science and Technology Exchange between China and USA. Last December, ACSE organized a delegation and visited ZhongGuanCun and attended the 9th OCS conference in GuangZhou. In May, ACSE sent a delegation to attend an international drug discovery conference in Shanghai. Locally here in Chicago, ACSE played hosts for the delegations from Zhejiang (last October), Wuhan (last December), Jiangsu (this April) and Beijing (this September). This past June, our Boston Chapter hosted a talent recruitment event in MIT for China's XinAo group from Langfang, Beijing. Some key leaders of ACSE attended several important events organized by Overseas Chinese Affairs Office of the State Council, such as the events in May by Jian Fu, in June by Chunlai Yang, and in August by Kun Lian. One special event deserves mention here is that, on behalf of ACSE, I made an address in the 4<sup>th</sup> Conference for Friendship of Overseas Chinese Associations as the only speaker from North America, and Chinese President Jintao Hu met with the representatives of this conference. Through all these activities, ACSE has built up more connections with the Chinese organizations and corporations, effectively promoted science and technology exchanges between China and USA. Thanks to the great leadership of Yinsong Li, Qingxia Liu, Yi He, Kun Liang, Xiaodong Huang, Gentai Wang, Jian Fu, Zhiguang Yu, Zhipeng Hao and Zhi Wang.

Through all our team's hard work, we have achieved an important milestone in ACSE 15 years history. Looking at ACSE today, we all agree that it is now standing on a solid foundation. Its financial resource has never been stronger; its leadership team has never been more competitive and capable, its membership is growing at an ever faster pace, and as an organization it is healthy, active and thriving. In sum, ACSE's future has never been brighter. I am sure you all see these and will continue to give all your support to ACSE in the future as you all did before. Let's do our best to keep this great momentum going and make ACSE bigger, stronger and more successful.

Once again, thank you all very much!

Chunlai Yang, Ph.D.

President, Association of Chinese Scientists and Engineers – USA

## Continue the success; Write new future

Inaugural speech on Oct.7, 2007

Dear friends, ladies and gentlemen:

I'd like to begin by acknowledging all of the dignitaries who have joined us here today. Your help and support will make us achieve the new success in future.

As you know, in the past 15 years, ACSE has made great achievement with the efforts from all of us. However, we cannot sit still, we have to keep going. What is the next? I think there are three major things we need to do.

First of all, we are going to strengthen Science, Technology and Culture Exchange between US and China. We know we have lot of things done in the past, we know we have achieved great success, but it is not enough, we need to do more. As people saying, “stand higher for seeing better”. A good news I can tell you here is that we are planning to set up an office in Beijing so that all ACSE members and our partners will get benefits from it.

Secondly, we are going to promote all Chinese-American to integrate into mainstream society and upgrade the right and interests of Chinese Overseas. I am not sure if you start to realize or not, more and more words appearing in the newspaper are “make your roots localized”, instead of “the leave goes back to roots”. Of course, we know it is not easy because it is a two-way traffic. However, for the sake of better life, for the sake of our children, we should do something, and we will do whatever we can. Next year is the year for election of US president; we will encourage everyone in our organization, if you have the right, to participate in the election. Votes count!

Third, the most urgent task for us is to have more and more people with knowledge, capability, and dedication to join us, especially young people. I understand you want to be successful in your career, however, you have to know the time is over to be successful on your own, you need friends, so join ACSE and make success together.

Finally, I know all of you used to help me in the past years, however, in order to achieve more success I will need the help from all of you more than ever, and I am confident that tomorrow will be better.

Thank you and God bless you all

回顾58年的发展历程,特别是改革开放以来,全国各族人民在中国共产党的领导下,国民经济快速发展,社会不断进步,综合国力和国际地位显著提高,人民生活水平实现了从温饱到小康的历史性跨越;在新的历史进程中,党中央、国务院审时度势提出了“以人为本、全面协调可持续发展”的科学发展观,指导各族人民积极构建社会主义和谐社会。

增强自主创新能力、建设创新型国家已经确立为新的国家发展战略,到2020年R&D的经费投入将达到GDP的2.5%以上,科技进步对经济发展的贡献率达到60%以上,努力使中国进入世界创新型国家行列。建设创新型国家是惠及广大人民群众的伟大事业,欢迎科工专各位会员献计献策,以多种形式为国服务,积极投身于建设创新型国家的行列当中,在为祖国服务的同时实现自己的人身价值。

目前,中美关系稳步发展,两国高层保持经常性沟通,战略经济对话成功举行,各领域务实合作有效推进,在重大国际和地区问题上保持了良好沟通和协调。事实表明,中美双方既是利益攸关方又是建设性合作者。近年来,美中西部地区对与中国发展双边关系的积极性普遍提高,领区内各州在经贸、科技、教育、文化等各领域的合作不断深入发展,多位州长、市长和议员等已成功访华,双方合作领域和规模不断扩大。我们相信通过双方持续共同努力,我与领区各州关系将会进一步得到巩固和发展。维护健康稳定的中美关系,是建设和谐世界的重要内容。台湾问题是中美关系中最重要、最敏感的核心问题,慎重处理好台湾问题,对于维护中美建设性合作关系具有重大意义。旅居美国中西部地区的广大侨胞积极开展“反独促统”活动,齐声谴责“入联公投”等台独活动,我们深信只要全体炎黄子孙万众一心,“台独”分裂图谋就不会得逞。

科工专是旅居美国的各领域科技专业人士组成的一个重要团体,人才荟萃,会务发展。你们不仅在各自专业领域里取得了可喜成绩,而且时刻关心和支持祖国的现代化建设和统一大业,为促进中美两国人民间的友谊与交流做出了积极贡献,借此机会我特向大家表示衷心的感谢;希望并相信科工专及全体会员能继续高举“合作、发展、贡献”的创会宗旨,充分发挥自身优势,积极推动中美科技、文化交流、关心祖国发展,促进中美友好合作。

最后,祝科工专全体会员事业蒸蒸日上,家庭和谐美满,携手并肩,再创辉煌!

**UNITED STATES SECRETARY OF LABOR ELAINE L. CHAO**

October 7, 2007

Greetings to all gathered for the 15<sup>th</sup> Annual Conference of The Association of Chinese-American Scientists and Engineers!

Since 1992, the Association of Chinese-American Scientists and Engineers have worked diligently to promote the exchange of information between the United States and China, especially in the areas of science, technology, culture, education and business.

As America transitions to a knowledge-based economy, many new jobs created will require higher skills and more education. We will need workers in many industries including healthcare, nanotechnology, biotechnology, geospatial technology, information technology, and advanced manufacturing. Over the decade ending 2014, for example, the U.S. will need over 900,000 engineers, including aerospace, biomedical, civil, computer software, and environmental engineers.

These trends represent a promising opportunity for the Asian Pacific American community, which places tremendous value on education. President Bush shares the values of our community and has reached out to our community in many ways. He has appointed more than 400 Asian Pacific Americans to the highest levels of government, including two Asian Pacific Americans to serve in his Cabinet at the start of his Administration. Both President George W. Bush and I are committed to continuing to reach out to the Asian Pacific American community and ensuring that their contributions to our country are recognized and celebrated.

Best wishes on a successful conference!

Sincerely,

*Elaine L. Chao*

## 变化的中国 (摘录)

陕西省政府常务副省长 赵正永

尊敬的杨春来先生;  
各位女士们, 先生们, 朋友们;

得悉旅美中国科学家工程师专业人士协会第十五届大庆年会召开, 我首先表示热烈祝贺, 本来我应该亲自出席, 但因回国参加重要会议, 不能出席, 深表遗憾。但我能够感受到, 在这样的热烈的会场气氛中, 大家都以赤子之情关注着祖国的发展和变化, 希望了解变化的中国。

中国的发展取得了巨大的成就, 但是, 中国依然是世界上最大的发展中国家, 人均国内生产总值仍排在世界100名之后, 中国人民的生活还不富裕, 中国的发展还面临着不少突出的矛盾和问题。比如, 经济结构矛盾突出, 城乡、地区之间发展不平衡, 投资消费关系不协调; 资金流动性过剩问题突出, 投资增长过快、信贷投放过多; 外贸顺差较大, 国际收支不平衡矛盾加剧; 经济增长方式粗放, 能源消耗高, 环境污染严重; 就业和社会保障压力增大, 贫富差距较大, 一些低收入群体生活困难; 食品药品安全、医疗服务、教育收费、居民住房、社会治安、安全生产等方面还有许多不尽人意之处。这些问题说明, 中国依然处于不发达阶段, 我们所达到的小康依然是低水平、不全面、很不平衡的小康, 人民群众日益增长的物质文化需要同落后的社会生产之间的矛盾依然是中国社会的主要矛盾。

要彻底改变中国的面貌和改善中国人民的生活, 需要继续持之以恒地艰苦奋斗。全面建设小康社会、建设社会主义和谐社会, 是我国今后一个时期的奋斗目标。为了实现我们的发展目标, 中国政府根据国情和时代要求明确了自己的发展理念, 这就是树立和贯彻以人为本、全面协调可持续发展的科学发展观。统筹城乡发展、统筹区域发展、统筹经济社会发展、统筹人与自然和谐发展、统筹国内发展和对外开放, 更加注重解决民生问题。

作为中国陕西省的副省长, 请允许我在这里把陕西的基本情况向大家也作一个简单的介绍, 希望大家关注陕西, 支持陕西。

陕西作为西部地区的一个重要省份, 综合科技开发能力位居全国第三, 教育综合实力排在全国第五。西部大开发科技教育要先行, 陕西将成为西北科技开发和人才培养的重要基地。

陕西地上地下蕴藏着丰富的自然资源。全省已探明的矿产资源92种, 其中28种居全国前3位。陕南秦巴山区素有世界生物资源宝库之称。大熊猫、朱鹮、金丝猴等均属世界珍稀动物。中华猕猴桃、沙棘、绞股蓝、紫杉等植物极具开发价值。煤, 石油, 天然气等储量丰富。

陕西旅游资源得天独厚, 黄帝陵、兵马俑、法门寺、西安碑林、历史博物馆、古城墙等十大景观堪称“中国之最”。壶口瀑布、西岳华山、太白山等自然景观独具特色。随着旅游资源的深度开发和旅游产业的发展, 旅游业已成为陕西经济的重要支柱。

陕西制造业基础雄厚, “一五”、“二五”及“三线”建设时期, 一直是国家重点建设的省份。一大批沿海的骨干工厂内迁陕西, 经过了50年的建设, 已经建成了以机械制造、电子信息为主体现代工业体系。其中飞机、火箭、通信、计算机、精密机床、自动化仪表、现代医药等均在全国同行业中占有重要地位。

实施西部大开发以来, 陕西经济综合实力显著增强。近五年陕西省生产总值年均增长12.2%, 2006年达到4383.9亿元, 经济总量迈上了新台阶, 进入了工业化和城市化加速发展的新时期。财政总收入近700亿元, 增长31.7%, 增幅居全国前列。陕西基础设施明显改善, 高速公路通车总里程达2640公里, 通信, 铁路, 机场等一大批工程相继竣工, 长期制约经济发展的“瓶颈”得到了明显缓解。陕西优势特色产业发展势头强劲, 基本形成了装备制造、高技术、能源化工、旅游、果业、畜牧业等六大特色产业, 对经济增长的拉动作用日益明显。2006年, 能源化工工业增长34.4%, 拉动规模以上工业增长16个百分点; 装备制造业增长29.6%, 拉动规模以上工业增长6.1个百分点, 高技术产业对经济增长的贡献达到40%。陕西苹果出口70多个国家和地区, 已成为我国农产品出口的知名品牌。旅游业快速增长, 2006年国内旅游收入378亿元, 国际旅游收入5.1亿美元, 旅游总收入占国民生产总值超过9.5%。陕西科技教育蓬勃发展, 通过高、新、尖技术的开发应用, 着力发展高科技含量、高附加值的主导产品。2006年全省地方登记的科技成果共583项, 通过鉴定或验收的占78.3%。在已开发的1000多种民用产品中, 有200余种投入批量生产, 150多种进入国际市场, 民用飞机、汽车、制冷设备、新型纺织机械、核医学设备、精细化工、电子设备等支柱民品正在形成规模。坚持把教育放在优先发展的位置, 努力增加投入, 到2006年底, 全省所有县区普九验收达标, 初级中学入学率为98.5%; 小学入学率为99.4%。高中教育, 职业教育发展步伐加快, 普通高等教育得到加强, 现在公办高等院校有76所, 在校学生72.62万人。

陕西经济和社会发展进入了历史最好时期, 也处于发展的关键时期。我们将以加快发展为主题, 坚持扩大内需的方针, 积极推进西部大开发, 重点抓好基础设施和生态环境建设, 大力实施科教兴陕、工业强省、项目带动和可持续发展战略, 加快关中高新技术产业基地、陕北能源重化工基地、陕南现代中药基地、渭北绿色苹果基地建设, 为建成西部经济强省和全面建设小康社会奠定坚实的基础。

陕西物华天宝, 人杰地灵, 陕西的市场是不断开放的市场, 陕西的政府是努力为开放服务的政府, 东部创造的开放环境, 西部同样能创造。我们热忱欢迎你们, 欢迎海内外的科学家, 工程师和企业家朋友, 投身到陕西这方富饶而有厚重的历史文化的沃土中来, 创业, 贡献和赚钱。让我们携起手来, 走向更加辉煌的明天!

*Moderator: Dr. Kezhun Li, ACSE Chairman of the Board*

1. Topic: Special Employment Issues of Scientist and Technologist  
Speaker: Steven Weseman, Associate General Counsel, Intellectual Property for Cabot Microelectronics Corp.  
Although we traditionally think of scientific researchers as university professors, businesses employ the greater share of these professionals worldwide. In our fantasy world, we would read articles in the Wall Street Journal about how stock investors are enraged over the excessive salaries paid to company scientists. The real corporate environment in which we now compete puts a far greater value on the role of business managers as compared to technologists, however. What's a dedicated, professional researcher to do? To start, technologists need all the help they can get towards understanding how best to assert their rights and privileges as employees. Steven Weseman will make a short presentation and lead a discussion regarding at least the following related issues: (1) Rights and Privileges of the Employee Inventors, (2) Coping with Non-Compete Obligations, (3) Severance and Release, and (4) Consulting Agreement With Former Employers.  
Steven Weseman is the Associate General Counsel - Intellectual Property for Cabot Microelectronics Corp. - the world's leading supplier of slurries for chemical mechanical planarization in IC manufacturing. Steve is in charge of developing and maintaining patent portfolios, and also intellectual-property enforcement and licensing. In particular, business-critical patent enforcement has been a major component of Steve's work over the last few years

Before joining Cabot, Steve was Chief Patent Counsel for CTS Corporation, which designs and manufactures electronic components for automobiles, computers and cellular phones. His law firm experience includes patent drafting and prosecution, patent litigation, intellectual property due diligence, and trademark protection. Before becoming an attorney, Steve was a consulting project engineer in process automation for Setpoint, Inc. (now Aspen Technologies) and a related joint venture between Setpoint and UOP. Steve has a B.S. in Chemical Engineering from Michigan Technological University and a J.D. from Loyola University Chicago.

2. Topic: An Introduction to Six Sigma     Speaker: Nick Shyamani, Motorola  
Six Sigma provides a structured methodology to improve existing products and processes as well as the development of new products and processes. The workshop shall provide an overview of Six Sigma improvement methodologies. We shall introduce DMAIC, DMADV, DMADDD improvement models, provide rules model selection. The workshop shall conclude with some concrete examples & discussion of successful and unsuccessful six sigma projects.
3. Topic: Diversity and Inclusion in Motorola     Speaker: Lynn Qian, Motorola.  
This talk will show how we can benefit from diversity groups like Asian Business Council (ABC).
4. Topic: How to Build a Harmonious Overseas Chinese Community  
Yonggao Wang, President of Chinese American Alliance for China's Peaceful Reunification.

### **Session C   Live in USA: Investment, Law, Health... (Room: Barrington)**

Speakers: Mr. Scott Cauwels, Senior Corporate Counsel, Best Buy  
Dr. John Huang, John Z. Huang Associates

3. Topic: Retirement and Education     Speaker: Ms. Joanna Wang, Prudential Financial

## 科工专成功举办盛大夏季野餐会

科工专会刊编辑委员会主任 范春明

八月四日,似乎天遂人愿,仲夏时节的芝加哥出现了少有的温和天气。正是在这一天,在位于芝城北郊的Libertyville镇,以宽阔的占地面积,丰富多样的植被和美丽静谧的环境而著称的Old School Forest Preserve森林公园里,中国旅美科学家、工程师、专业人士协会(科工专)成功地举办了由300多人参加的盛大的夏季联谊野餐会。

此次隆重的聚会由科工专副会长徐向东,秘书长陈奎具体策划和筹备,科工专工作人员殷锐、黄晓东、郝志鹏、范春明,余枝广、王跟太、张誉、刘亚亚、张显、栾文琦、周麓波、周涛、谢杰和众多热心会员的都为此付出了辛勤的劳动。会长杨春来博士,理事会主席李克准博士也都一直积极参与其中。筹委会集思广益,通力协作,组织了丰富多彩的智力、体育和休闲等娱乐项目,预备了老少咸宜、丰盛可口的中西美食,广邀各界新朋旧友,旨在增进会员友谊,联络各方感情,提升协会影响,促进协作发展。

是日正午刚过,众多的科工专会员及家人和朋友便从四面八方陆续出现在聚会现场。北京市高校校长赴美教育管理高级培训团的26位嘉宾也应邀出席。来宾们济济一堂,人气鼎旺。凉亭绿荫下,人们或聊天叙旧,互致夏安;绿茵球场上,大家或亲自上阵,小试身手;这边传来一片欢声笑语,那边忽闻些许助威呐喊。此时此地,每一个与会者都充分享受着这集天时、地利、人和的所在,一个下午已飞逝而过。。。。。。

在大家意犹未尽、即将道别之际,科工专会长杨春来博士向来宾们简短地介绍了科工专自1992年成立以来,本着增进友谊,促进合作,加强交流,提高专业水平,促进会员的事业发展的宗旨,十五年来成长和发展的历史。他还感谢大家多年来对科工专的大力协助和热心支持,使得科工专日益成熟壮大,现有15个颇具规模的地方分会,注册会员亦超过1500名。最后,杨春来会长热诚地邀请大家在即将于今年秋季举行的具有里程碑意义的第十五届科工专年会上相见。
