Economy Globalization Drives for Global Cooperation

Haibo Guo, Ph.D.
ACSE President

Dear distinguished guests, ACSE members, ladies and gentlemen,

First I would like to welcome everyone to the ACSE 17th annual conference. We are delighted that many government and state leaders from both China and the US, and many distinguished and expert keynote and session speakers, come to today's conference. We are pleased that many companies come here to join the job fair, and that many of our members and friends come to the conference and support the organization. On behalf of ACSE, I would like to thank our honorable guests and speakers for your support and contribution. I would also like to thank our members, friends and company representatives for your continuous support to ACSE. Your support, dedication and contribution make our community stronger and better.

For the past year, ACSE has organized and participated in many events in many aspects: education, business, finance, personnel career and development, and so on to better serve our members and communities.

ACSE hosted a discussion with a delegation from Beijing universities to exchange information, which is beneficial to Chinese educational systems. China Central Television (CCTV) came to North America to interview scientists, engineers and educators to discuss the advantages and disadvantages between China and US education systems. ACSE helped to organize the interviews, and our members were interviewed and expressed their opinions. CCTV planned to produce a 52-episode program and broadcast nationwide. Our activities on education will enhance the understanding of the American education systems especially for Chinese educators.

Our business opportunity and career development forums brought several Chinese delegations to Chicago area to look for cooperation. ACSE has been playing an important role in building the exchange platforms between US and China, and has made good connections among our members, US companies and Chinese companies. Also those successful visits by the Chinese delegations have brought business to local cities and communities. The visit by ZhangJiaGang delegation has drawn a big attention among our members; more than 160 attended the conference. The ChangZhou-Chicago conference of business and opportunity was another success, and in addition to ACSE members, many local companies and businesses attended the conference. As Chinese businesses are flourishing, more and more Chinese firms will invest overseas. Sany Group is a frontier to invest in US. ACSE hosted a career seminar for Sany America, who is opening a business and hiring employees in the US.

Economy Globalization Drives for Global Cooperation

During the economic downturn, people felt lots of pain in personal investment and retirement funds. ACSE teamed up with other organizations to host a financial seminar to discuss the current economical situation, and to express personal views of the financial tsunami. ACSE also organized a delegation to go to Shanghai financial forum.

ACSE has worked with other organizations and university alumni to better serve our members and to broaden the networks. We have jointly hosted the Chinese New Year dinner banquet and the summer picnic with about 700 people participating. ACSE participated in the Chinese New Year parade in Chinatown and we all are proud of the culture and inheritance. ACSE also participated in the China Day parade on Sep.27, 2009 to celebrate the 60th birthday of PRC.

Nature disaster is unpredictable. On August 8, many of us witnessed the riverfront hotel collapse in Taiwan. A record level flood took away many people's lives and homes. ACSE jointed the organizations in greater Chicago area for a donation drive in support of the victims. Our members opened their heart to help others.

In addition to the delegation exchanges mentioned previously, ACSE has hosted a number of delegations from China, and sent members to China as well. Throughout the past year, ACSE has hosted Board Chairman Chen Biting, Shenhua Group; Deputy Director General Mr. Jiang Liping, Chinese Government Ministry of Human Resources; Laixi, Shandong Province delegation; Ninghe, Tianjing delegation; and Suzhou Science and Industry Park delegation. ACSE board chairman, Yang Chunlai, visited Nanjing and met with the top official Mr. Zhu Shanlu.

The following board members have finished their board tenure, YANG Chunlai; FAN Chunming; HUANG Xiaodong; LI Yinsong; WANG Jian (Joanna); ZHANG Yue, and the retired advisers are LUO Jianshu and WANG Yonggao. We sincerely appreciate all their great contribution to ACSE over years. I would also like to take this opportunity to thank our working team, board, and all our members and friends. I thank you for your continuous support and participation in our organization.

Today we gather here to discuss the economic situation that the whole world is facing. The globalization and modernization determine that cooperation and collaboration are essential for economic recovery. It also reflects ACSE's fundamental principle of "Cooperate, Develop and Contribute". Therefore, for this ACSE 17th annual conference, we will focus our attention on the "US-China cooperation for the world economy recovery".

We have a great program for you today. I sincerely hope that you all will enjoy the presentations, career and networking opportunities.

Building a Stronger ACSE
Promoting Deeper US-China Cooperation
Lubo Zhou, PhD, President of ACSE
October 10, 2009

Dear distinguished guests, speakers, ACSE members, and friends:

Today, I am honored to stand in front of you as the new president of the Association of Chinese-American Scientists and Engineers (ACSE). I am also humbled by the tasks waiting for me in the coming year. After 17 years of development, ACSE has become one of the biggest and most influential Chinese-American professional organizations in North America. It is a big challenge for me to carry the tradition and momentum to build an even stronger ACSE.

Let me start to thank our honored guests and speakers, especially the ones who came across the Pacific Ocean. Without your support, I can hardly imagine that we would have such a strong program for our annual conference today. I would like to thank all the ACSE members for their trust to elect me as the new president. Thanks also go to the ACSE executive committee, Board of Directors, advisors, and all of the volunteers who have worked hard to make this year's conference one of the best in the history of ACSE. Last, but not the least, I would like to thank Dr. Haibo Guo, the proceeding president, and Dr. Chunlai Yang, the proceeding Chairman of Board of Directors, for their strong support to make the transition extremely smooth. While I am expressing thanks to all of you, I believe that ACSE is an excellent organization with wonderful people whom I can count on in my term. We will work together to make this organization better and stronger next year.

What does a stronger ACSE mean? A stronger ACSE is an organization to be a more active value **contributor** to the mainstream society; a more effective **consultant** for our members' career growth; a more fun social activity **center** for members and non-members' network; and a leading **connector** for Chinese-American professional organizations in North America.

I used to involve in many meetings and activities that the majority of attendees were Chinese-Americans. People urged us to join the mainstream society. My question is where the mainstream society is. Isn't it that we are part of the mainstream society? However, on other side, we sometimes felt that our contributions to the mainstream values did not seem to be recognized by many people in this country. What is the problem? I'd here like to borrow what President Kennedy used to say: "Don't ask what your country can do for you. Ask what you can do for your country". We, Chinese-Americans should first ask what we can contribute to our mainstream society. Chinese-Americans have strong emphasis on family unity and education importance. Should this emphasis be the core values of our mainstream society I strongly believe so. And so do my colleagues and neighbors in this country. I believe that ACSE shall be a strong promoter for our members to contribute our values to the mainstream society. I plan to organize our member scientists and engineers to involve in the local activities such as school activities and community activities. We can share our rich experiences on child education and family unity to make this country better and stronger. When ACSE and Chinese-Americans are more visible as a major **Contributor** to the mainstream value, I believe, that our value as part of the mainstream society will be recognized by all the people in the United States of America.

Another goal to build a stronger ACSE is to enhance membership services so that ACSE can become a more effective **Consultant** for our members' career growth. We should continue with our activities such as job fairs, career seminars, etc. to help our members in today's tough economical time. I also plan to organize an industrial executive and top scientist advisory committee for ACSE who can serve as the mentors for our members. We shall organize activities that involve our advisors and members to discuss the career growth plans. Besides, I would like to set up one student chapter in each of the surrounding universities to better serve our student members. I have a dream. I dream that one day, our ACSE members will become Nobel Prize winner scientists, top executives in Fortune 500 companies, senators, and congressmen or congresswomen in this country.

Building a Stronger ACSE Promoting Deeper US-China Cooperation

I believe that ACSE should provide networking activities that are fun to the members and friends. In the last two years, ACSE allied with other local professional organizations has organized large summer picnics. We had about 700 people showed up in each picnic, and the feedbacks from all the attendees are very positive and encouraging. We shall continue to organize this activity and build it as a tradition in the great Chicago area. At the same time, we can improve our other activities such as Chinese New Year party. The key is to design the activities with more self participation by the attendees so that they can **feel** the fun. Hence, my other goal for next year is to build ACSE as a fun social activity **Center**.

We shall expand ACSE's outreach to members and non-members by allying with other professional organizations so that ACSE becomes a nationwide **Connector** for professional Chinese-Americans. The summer picnic is an excellent example showing how alliance would work better. This year, five alumni associations, ACSE, and financial association in great Chicago area together organized a wonderful summer picnic. However, we should not stop here. Our outreach program should go beyond Illinois. Organizations of professional Chinese-Americans in Chicago, Los Angeles, New York, and many other places in North America should be connected through communications or alliance ACSE is willing to initiate such activities and take the lead if necessary.

What can a stronger ACSE do? We can do many things, but today I would like to emphasize one thing: to promote US-China cooperation.

USA and China have mutual interests in many aspects. In energy field, both countries are looking for ways to reduce dependence on foreign import, and trying to increase the efficiency. In another important field, which is green house gas emission and global warming, China and USA are number one and number two countries emitting most green house to the atmosphere in the world. Both countries are facing ever increasing pressure from other countries' request to reduce the green house gas emission. China and USA can have a lot of collaborations in the field to capture CO₂ or use other renewable energy to reduce the green house gas emission. As for economy, the financial crisis that started last year has spread to the whole world that generated an economic crisis. The crisis came so quickly that the world looked for the cooperation and leadership from both USA and China. "I don't think it's realistic to expect that we will see global recovery without Chinese and American cooperation and leadership", Hillary Clinton stated when she was interviewed by a famous Chinese TV commentator during her first visit to Asia as the Secretary of State.

Looking forward, I see all good reasons that two countries shall cooperate and work together to solve the world's biggest problems such as energy, global warming, and economy. ACSE and its members are in the unique position to help and promote such cooperation. In recent years, ACSE started to build the US-China exchange platform to bring the opportunities for direct communications between the people from two sides. We have successfully organized the conferences for Wuxi, Changzhou, Suzhou, Tianjin, Zhangjiagang, etc. I plan to enhance such functions. In addition, I shall expand such exchange in depth so that cooperation in project level will be initiated and will last long. ACSE will actively promote the communications and cooperation in different fields and at different levels, and will look for opportunities for long term and sustainable cooperation. The goal is to build ACSE as a better known US-China exchange bridge **Constructor**.

Through the effort of all of our members, we will build a stronger ACSE that is an active value **Contributor**, an effective **Consultant**, a social activity **Center**, a Chinese-American Professionals' **Connector**, and a US-China exchange bridge **Constructors**. I understand that it is not possible to achieve all the goals in one year, but we have defined such blue print for everybody to dream. With the help from each member, I believe that we will reach our goals someday.

Thank you all for your attention. Enjoy the rest of the program!

郭海波会长、杨春来理事长：

值贵会举行第十七届年会之际，我谨代表中华人民共和国驻芝加哥总领事馆表示热烈祝贺。

贵会本届年会以“中美合作携手走出世界经济危机”为主题，邀请中美学者就此进行探讨，很有意义。金融危机波及全球，任何一个国家都不能独善其身，世界各国只有加强合作，共同努力，吸取金融危机发生的深刻教训，采取得力措施，调整经济结构，稳定市场，促进增长，加强金融监管，重建国际金融秩序，维护开放自由的贸易投资环境，克服贸易保护主义倾向，才能走出金融危机。中美作为对世界和平和发展负有重要责任的两个大国，更应加强合作，同舟共济，共克时艰。我相信年会对此进行探讨，将会为两国进一步加强合作、恢复世界经济提供新的启示和见解，也会有助于与会人员的增强战胜金融危机的信心。

贵会多年来利用自身优势，积极推动中美两国在专业领域的交流与合作，不仅有利于两国和两国人民，也有利于大家自身事业的发展。我衷心希望贵会一如既往，继续努力搭建两国专业人士交流与合作的平台，并做出新的更大成绩。

预祝年会圆满成功。

Bill Foster, Ph.D.
US House of Representatives

Representative Bill Foster was elected to fill the remaining term of former Speaker Dennis Hastert in one of the most closely watched special elections in more than a decade. His stunning victory was hailed by analysts across the country as a sign of the changing landscape of 2008. He was sworn in to represent the people of Illinois' 14th Congressional District on March 11, 2008.

Before being elected Congressman, Rep. Foster worked as a researcher at Fermi National Accelerator Laboratory (Fermilab) for 22 years. At Fermilab, Foster started his distinguished career by helping discover the top quark, the heaviest known form of matter. He also led the team that designed and built several scientific facilities and detectors still in use today including the Recycler Ring, a giant particle accelerator.

At 19 years old, Foster started a company out of his basement with his brother Fred. In 1975, they invested \$500 and built ETC, Inc. a theater lighting company into a firm that now manufactures more than half of all the theater lighting equipment in the United States.

Bill Foster earned his Bachelor of Science degree from the University of Wisconsin-Madison in 1976, and graduated from Harvard University with a Ph.D in physics in 1983. He has been elected a Fellow of the American Physical Society, received the Rossi Prize for Cosmic Ray Physics for the discovery of the neutrino burst from Supernova SN1987a, received the Particle Accelerator Technology Prize from the Institute of Electrical and Electronic Engineers, and was awarded an Energy Conservation award from the U.S. Department of Energy for his invention and application of permanent magnets for Fermilab's accelerator.

回首过去的一年，南方冰雪之时，有我们送去的温暖；天崩地裂之际，有我们对生命的呼唤；金融海啸之间，有我们危机的探讨和对未来的展望。

这次春节晚会已成为一个重要的，传统的社交平台。你不但拜会老友，又能结交几位新朋友。天大和复旦校友欢聚一桌热烈交谈，北大校友何婷婷从密尔沃基远道前来赴会。金融业人士热烈畅谈，谈论对金融危机的感受，期待着牛市的早日到来。

在校友会中不乏艺术天才。在2008年中央电视台青歌赛芝加哥赛区获亚军的浙大校友何英，以一曲高昂动听《为祖国干杯》歌声表达了温馨的情和赤诚的心。太阳举起金色的酒杯，月亮举起银色的酒杯，在晚会上大家也频频举杯，共同表示良好的新春祝愿。各位艺术高手纷纷上场献艺，活跃晚会气氛。每逢佳节倍思亲，著名业余民歌手刘光辉演唱了歌曲《儿行千里母担忧》，表达了远离家乡的海外学子们对亲人的深深思念。刘晔的东北二人转《小拜年》，表达了新年里家家团圆人人拜年的喜乐气氛。由郝一丁、黄清宇、袁家声和高凯思组成的少年乐队用西方弦乐联奏了自编的中国传统乐曲。宋来春演奏了巴赫的大提琴曲。

晚会的抽奖活动中奖品丰富，分别设有特等奖，一等奖，二等奖和三等奖。

玉鼠回宫传捷报，金牛奋地涌春潮。人们带着美好的新年祝愿依依不舍。牛年吉祥，愿中国牛年，牛转乾坤，让世界牛气冲天。我们共同祝愿，牛年牛事牛人多。

又讯，春节不仅是华人的重要节日，春节也越来越走向美国主流社会。2009年2月1日芝加哥南华阜的春节游行吸引了数万游客。科工专也派出队伍和各校友会联合组成方阵，亮出各协会的会旗和横幅为春节游行增添气氛。

中国常州—美国芝加哥双边投资贸易暨科技人才交流洽谈会

梁琨

2009年5月19日晚，在美国第三大城市芝加哥市中心万豪酒店，中国常州市政府与美国中美总商会和旅美中国科学家工程师专业人士协会共同主办了“中国常州—美国芝加哥双边投资贸易暨科技人才交流洽谈会”，来自美国中西部的企业界人士、海外留学生、华人科技人员300多人出席。常州市政府常委杭天珑、中国驻芝加哥总领事黄屏、中美总商会会长任剑浩、旅美中国科学家工程师专业人士协会会长郭海波等在会上致词。常州市代表团重点介绍了常州市的经济发展和常州市吸引外商投资及海外人才等方面的举措。

杭天珑在发言上介绍说，历史上的常州，文化底蕴深厚、人才教育发达。今天的常州，已经成为“创业环境良好、发展前景广阔、值得投资兴业的长三角名城”。2008年常州在“中国城市综合竞争力”排名中列第20位，在“福布斯中国最佳商业城市”排名中列第9位。2008年，常州地区生产总值超过了330亿美元，人均GDP超过9000美元。常州是一座海归高层次人才创业之城。常州于2006年10月正式启动实施了领军型海归创业人才引进工作。三年来，550多名海归高层次人才落户常州。这充分说明众多海归人才和科研人员已在常州这片土地上显示出强大生命力，通过在创业载体、环境营造、政策扶持和服务机制四个方面的不断优化和创新，提升了常州整体形象，树立了人才引进品牌，力争招揽更多的海外人才来常州创业发展。常州人事局长张金富详细介绍了“常州市千名海外人才集聚工程”，计划5年内引进1000名高层次的科技和企业管理人才在吸引海外投资和引进海外人才方面的具体政策和措施，并为落户常州者提供最优惠的条件。

科工专会长郭海波在大会发言中表示，科工专与常州市的合作由来已久。贡毅博士是从芝加哥回到常州创业的杰出企业家。近十余年来回国创业，取得了优异成绩，对中国科技经济发展，特别是对常州的发展，做出了重要贡献。是芝加哥的骄傲。他并率团回访过科工专。科工专副会长梁琨女士，在过去的数年里，频频地飞翔于大西洋两岸，为常州培训了上千名老师。科工专理事长杨春来博士情系江苏，在芝加哥拜会见过江苏省科技厅长杨悦，又和江苏省常委，南京市委书记朱善璐是校友。春来访问江苏时，朱书记亲自设晚宴与他叙旧。杨春来博士置身于金融领域的汪洋大海，对期权期货，衍生经济有着多年经验。他积极搭建中美交流平台，为两国企业和个人的互动，作出了积极的贡献。今天，常州市代表团的来访，必将进一步增加双方了解，加强双方合作，创造双赢。特别是在当今全球经济低迷的情况下，常州代表团的到来，为科工专会员二次创业，提供了极好的机会。科工专的全体同仁期待与常州市的真诚合作，为故乡的发展，经济的飞跃，贡献一份力量。

ACSE Sponsorship Program – Year 2009

The Association of Chinese-American Scientists and Engineers (ACSE) (<http://www.acse.org>) is the largest Chinese American professional association in the United States of America. Founded in 1992, ACSE is a not-for-profit, non-political professional organization headquartered in Schaumburg, Illinois with regional chapters in over 30 states. ACSE has 15 local chapters and 12 professional societies covering engineering, science and technology, medical and biotechnology, law, business management, and many other areas. The association currently has over 6,500 registered members of whom over 90 percent hold Ph.D. or Master's degrees.

The principles of ACSE are “Cooperate, Develop and Contribute”. Since its foundation, ACSE has been playing an important role in promoting interactions between US and China in varieties of areas, including science and technology, finance and business, government agencies, art and culture and education. All the efforts and achievements of ACSE have been applauded by senior governmental officials and prominent leaders from both countries. The first US ambassador to China Mr. Wood Cock, former US Secretary of Defense Mr. William Cohen, former Chinese Ambassador to US Mr. Daoyu Li and dozens of prominent leaders attended and addressed in ACSE annual conferences as keynote speakers. Chinese President Jiang Zemin received the ACSE delegations. The success of ACSE attributes to the contributions from all ACSE members, to the supports from the societies and communities. ACSE greatly appreciates and thanks all individuals, companies, organizations and governmental departments for their support and contributions.

ACSE is actively seeking sponsorships from corporate and individuals in China and US to support ACSE activities. It aims to furnish a unique link between US corporations and Chinese American human resources as well as Chinese and American business markets and opportunities. These programs have been productive and successful with various corporations and personnel supports.

ACSE Events in Year 2008 - 2009

With the current world-wide economic downturn, ACSE sensed its unique position in helping US and China's economic recovery. Since last fall, ACSE has organized many conferences and activities to facilitate the idea exchange between people from both countries, and to promote business and investment opportunities for US and Chinese people and corporations. Major activities hosted by ACSE include:

- Forums held for Chinese cities (Wuxi, Zhangjiagang, Changzhou) in promoting business and job opportunities for Americans in China
- Conferences held for large Chinese corporations (Shenhua Group, Sany America) looking for business and investment opportunities in US
- Science & Technology and Business delegation to China
- Information exchange forum between Beijing Higher Educational Delegation and ACSE on educational cooperation opportunities
-

On October 10, 2009, ACSE will host its 17th annual conference on “US-China Cooperation for World Economy Recovery”. We anticipate senior government and corporate leaders from both countries to attend the conference and give speeches. This conference will mark another great success in promoting collaborations between US and China.
