美国华人科学家工程师专业人士协会30周年

PREFACE

As one of the largest Chinese-American professional organizations in the United States of America, the Association of Chinese-American Scientists and Engineers (ACSE) (<http://www.acse.org>) has a few thousand active members nationwide and it has become the most influential organization of Chinese-American professionals in the State of Illinois. Founded in 1992, ACSE now has fifteen local chapters and eighteen professional societies.

Abiding by its principle of “Cooperation, Development and Contribution”, ACSE has grown to be a strong community leader in promoting Chinese-Americans contributions to the mainstream value and societal development, and a strong advocate facilitating the exchange between the United States of America and China. ACSE works diligently on the integration to American society at both individual and organizational level. Many ACSE members have emerged as academic, industrial leaders and beyond. In the past, ACSE has organized many major events to serve its members and communities in the areas of sciences, technology, culture, economics, and business. These events include conferences, annual conventions, job fairs, and seminars on education and career development as well as cultural differences between USA and China, etc. Since the COVID-19 pandemic in 2020, ACSE has actively organized online seminars which provide members and local community opportunities to learn and discuss online. The seminars revolve around three topics, which mostly concern our members and community: Education, Finance and Health. Those seminars attracted many audiences and received very positive feedback.

Looking back upon the 30-year history of ACSE, we would like to thank all the ACSE board directors and working team members for their dedication and hard work. We would also like to thank all the members for their trust and strong support. Our special thanks go to the companies and individuals from both the United States of America and China who provided financial support to this organization.

ACSE's 30-year history is the epitome of the growth of the new generation of Chinese-American. With bigger influence of Chinese community worldwide, ACSE will grow even stronger to become a more impactful organization of professionals in the United State of America! We anticipate a stronger ACSE will play an even more important role in serving the Chinese-American community, in leading the Chinese-American professionals to contribute to the mainstream value, and in promoting the exchange and friendship between the United States of America and China.

Stanley Zhou, President of ACSE
Minna Xiao, Chairman of Board of ACSE

前言

美国华人科学家工程师专业人士协会 (ACSE, 简称科工专) 自1992年成立以来已经走过了三十年的历程。科工专从创会时的四十多人发展壮大到了今天的一个拥有几千会员的综合性组织, 它同时建立了十六个地区分会和十八个行业学会, 会员背景涵括电子, 通讯, 生物, 医药, 石油, 化学化工, 计算机, 机械, 材料, 金融, 财经, 制造, 工程, 法律, 工商管理等各个领域。科工专现已成为全美国最大的华人科技人士的组织之一, 也是大芝加哥地区最有影响力的, 也最被认可的华人专业人士组织之一。

科工专自成立以来就始终坚持以“合作, 发展, 贡献”为其宗旨, 在合作与贡献中不断发展壮大自己。科工专以参与美国主流社会活动, 贡献主流价值作为协会重要的工作目标之一, 积极融入到当地的科技和社会活动中, 在美国当地社会的历史进程中发挥了重要的作用。科工专关注在美华人的切身利益和整体发展, 为新一代移民更好地适应美国文化, 寻求个人发展投入了大量精力, 从中涌现出了许多各行各业的精英。科工专以服务美国华人社区为己任, 常年开展服务社区的活动, 为美国华人在联谊、求职和职业发展等各个方面提供帮助, 为建立一个强大而有社会责任心的华人社区作出了贡献。自从2020年新冠大流行以来, 科工专积极组织线上讲座活动, 给会员和当地社区提供一个在线上学习和讨论的机会, 讲座围绕着三个华人共同关心的教育, 金融和健康主题展开, 吸引了众多的听众并得到大家的好评。科工专把促进中美交流, 增进中美友好作为自己的工作重点之一, 科工专努力搭建中美文化科技交流平台, 为中美双方的企业和人员交流提供了许多便利。从2009年以来, 科工专为促进中美两国企业与企业之间、城市与城市之间的交流办了许多有益的事实, 取得了有目共睹的成绩。

回顾科工专三十年的历史, 我们即要感谢历届科工专的理事、所有工作人员以及顾问为科工专的发展所做的巨大贡献, 也要感谢会员们的积极参与和无私奉献, 尤其要感谢在科工专发展中为这个组织提供了赞助的中美企业和个人。

科工专三十年的历程就是新一代旅美华人发展的缩影, 华人的影响力在美国乃至全球的不不断提高, 也会让科工专更加强大! 科工专将与时俱进, 不断完善自身, 更加积极地参与主流社会、贡献主流价值, 更好地服务会员和美国华人社区, 促进中美交流、增进中美友谊。

Dear Friends:

It is my pleasure to welcome all of you to Illinois and to The Association of Chinese-American Scientists and Engineers' (ACSE) annual conference.

For the past 30 years, the ACSE has played an active role in promoting friendship and scientific and economic exchange between Chinese and American citizens. This conference's theme, How Emerging Technologies will Reshape our Lives, provides an opportunity to consider they ways in which technology has changed our lives and will continue to do so, through many of your own professional research and development. The ACSE endeavors to build bridges among citizens, and I applaud your commitment to the mission of cooperation, development, and contribution, which benefits the collective good.

Again, I would like to extend my warmest wishes to tonight's attendees for your dedication to The Association of Chinese-American Scientists and Engineers. Congratulations on all your work and achievements.

Very truly yours,

Dear Friends,

It brings me great pleasure to extend my congratulations and best wishes to the Association of Chinese-American Scientists and Engineers (ACSE) for its Annual Conference. This occasion is a wonderful opportunity to celebrate one of the largest Chinese-American professional organizations in North America.

The ACSE has been critical in building bridges and strengthening relationships among Chinese-American professionals, while cultivating robust ties with other professional organizations too. Your work is vital in fostering growth and development for your members and for nurturing scientific discovery and engineering advancement in America. I wish you and your organization future growth and success.

Thank you for all that you do, and best wishes on tonight's event and all your future endeavors.

INTRODUCTION ASSOCIATION OF CHINESE-AMERICAN SCIENTISTS AND ENGINEERS

The Association of Chinese-American Scientists and Engineers (ACSE) (<http://www.acse.org>) is one of the largest Chinese-American professional organizations in the United States of America. Founded in 1992, ACSE is an independent, non-political, not-for-profit professional organization headquartered in Schaumburg, Illinois with sixteen regional chapters. ACSE has thirteen professional societies, including Telecommunications, Chemistry & Chemical Engineering, Pharmaceuticals, Mechanical Engineering, Management Business and Administration, Futures, Options and Finance, Medical Sciences, Computer Sciences, Industrial and Applied Mathematics, Environment, Bio-technology, Intelligent Transportation Systems, Law and the newly formed Entrepreneurship. The organization has several thousand members distributed throughout 30 states, over 90 percent of whom has a Ph.D. or Master degree.

Abiding by its principle of “Cooperation, Development and Contribution”, ACSE has organized many major events in the United States of America and China to build platforms and bridges facilitating the exchange between US and China, and between members and non-members in the areas of sciences, technology, culture, economics, and business. These events include conferences, annual conventions, job fairs, business promotion events, and seminars on education and career development as well as culture differences between USA and China, etc. These events served ACSE members and the communities well. Many prominent leaders in industry, academic, business, and government were invited to these events. For example, former US Defense Secretary, then Senator Mr. William Cohen, the first US ambassador to China Mr. Leonard Woodcock, former Chinese ambassador to USA Mr. Daoyu Li, Deputy Secretary of Chinese Department of Science and Technology Mr. Jinpei Cheng, Nobel Prize Winner of University of Chicago Professor Merton Miller; Nobel Prize Winner of Northwestern University Professor Stoddart, Former CME Group Chairman Mr. Leo Melamed, US Congressman Danny Davis, former Chinese Consul General in Chicago Mr. Hong Lei and many other outstanding leaders in their fields have been invited to deliver the keynote speeches at ACSE conferences and seminars. The Illinois Governor has recognized and applauded ACSE's services to the communities and efforts to promote US-China cooperation and economic development. Former Chicago Mayor Richard Daley said in his greeting letter to ACSE: “the ACSE has promoted mutually beneficial scientific, economic and culture exchange between the United States and China.... Chicago is the proud beneficiary of a strong community from China that has played a significant role in the history of our city and continues to make important contributions to the collective good of all citizens.”

This year is ACSE's 30th anniversary. ACSE has grown out of her infant stage and grows even stronger. With the ever growing Chinese-American community in the United States of America and ever increasing economic ties between China and USA, ACSE will play an even more important role as a community leader and strong advocate in promoting the cooperation between US and China, and in building a strong Chinese-American community to contribute to the mainstream value and societal development.

美国华人科学家工程师专业人士协会简介

美国华人科学家工程师专业人士协会 (ACSE, 简称科工专) 是美国人在美国最大的科技和专业人士组织之一。科工专于1992年在美国伊利诺伊州注册成立, 是一个非营利、非政治性专业组织。本着“合作、发展、贡献”的原则, 自成立30年以来, 科工专由一个43人的小协会发展到今天有16个地方分会和18个专业学会, 包括工程科学与技术、医学、生物学、机械、化学化工、材料学、法律、企业管理和创业等学科的大型综合性专业人士协会。协会目前有数千名会员, 分布在全美国30个州。所有会员中, 大约90%有博士或硕士以上学位。

科工专自成立以来就把参与美国主流社会活动, 贡献主流价值作为协会重要的工作目标之一, 积极融入到当地的科技和社会活动中。历年年会中, 科工专邀请到了许多美国知名政治家和企业家与会并作专题报告。美国第一任驻中国大使伍德科克先生、美国前国防部长及联邦参议员科恩先生、诺贝尔奖获得者芝加哥大学经济系米勒教授、诺贝尔奖获得者西北大学化学系斯塔德教授, 世界金融期货之父, 芝加哥期货交易中心荣誉董事长米纳梅德先生、伊利诺伊州州务卿怀特先生、美国众议员戴维思和佛斯特先生等都先后来参加科工专年会并作主题演讲。由于科工专对主流价值的贡献, 当时的美国劳工部部长赵小兰女士接见过科工专会长。正如芝加哥市市长戴利先生指出的: “芝加哥市有一个来自中国的强有力的团体(科工专), 它在城市历史进程中发挥了十分重要的作用, 并将继续为所有城市居民的利益而奉献, 芝加哥市作为直接受益者而感到十分自豪, 我本人也赞赏科工专为深化中美友谊和经济交流所做的杰出贡献。” (译自戴利市长贺信)

科工专更以团结并服务美国华人为己任, 常年扎根于社区开展各项服务活动。除了每年闻名遐迩的新年春节晚会和夏季野餐会(被视为芝加哥地区华人中间最盛大的活动), 科工专积极发挥自己的专业优势, 在社区推广各类科普讲座。课题琳琅满目涵盖从投资, 增值, 财务管理, 到卫生, 医疗, 保健, 以及青少年教育。另外, 科工专还组织主持了多场许多职业招聘会、职业发展研讨会、文化差异研讨会、教育研讨会、创业研讨会等活动来增加强华人在美国求职和提高生活的机会。我们坚信建立一个强大的有社会责任心的华人社区是对主流社会的最有力的贡献。

促进中美交流, 增进中美友好是科工专的另一个工作重点, 近年来, 科工专努力搭建中美交流平台, 为中美双方的企业和人员交流提供了许多方便。科工专为北京市、江苏张家港市、云南省等举办了大型招商和招才会, 邀请中美各界人士参加, 取得了非常好的效果。

今年是科工专成立三十周年, 科工专这个组织由“少年时代”步入“青壮年时代”。一个生机勃勃的科工专组织必将在今后时间里更加积极地参与主流社会、贡献主流价值、服务美国华人社区、促进中美交流、增进中美友谊。

坚持“合作、发展、贡献”谱写科工专协会的新篇章

——纪念美国华人科学家工程师专业人士协会 (ACSE) 成立30周年

协会首任会长 熊天渝 博士 2022年10月

岁月荏苒，1992年4月18日成立的《美国华人科学家工程师专业人士协会》（科工专）迎来了成立30周年华诞！此刻，我作为协会的创会会长，心情澎湃，思绪联翩，脑际不断闪现出伴随协会度过的难忘场景：风雪夜中协会筹备会上的激情，成立大会上的群情振奋，首届年会上中美两位大使同台演讲的震撼，与一批批国内的科技经贸访美团交流的热烈，一期又一期协会《创业者》出版时的喜悦，与各地区分会同步电话沟通达成协会发展共识的感动，在北京举办的招待会上高朋满座的欢声笑语，在芝加哥歌剧院举办的春节联欢会上的如雷掌声。。。我与ACSE的创业者们共同走过！看到ACSE从40多人的小队一路壮大前行，没有散队，没有分路，没有迷失，一代人的时光流逝，我们始终坚守共同的中华文化的根，共同面对新大陆的挑战，30届协会的领导骨干们仍然凝聚在ACSE群内，我们为协会的团结和发展感到无比的自豪和由衷的欣慰！对30年来参与科工专的活动，推动协会发展的会员和中美各界朋友表示深深的感谢！

抚今追昔，三十年来，科工专协会已经成为在美华人奋斗发展的缩影，成为促进中美两国人民友好与合作的桥梁，成为海外华人专业组织的领军者，为中国人的百年海外留学史谱写了新的篇章。30年的历程所取得的最根本的成就就是“合作、发展、贡献”的协会宗旨深入人心，成为团结广大华人奋斗发展事业的核心价值，是协会历届领导、广大会员和支持协会的中美各界共同培育的精神财富，奠定了协会长期健康发展的坚实基础。

协会的定位和会员决定协会的方向和标准，是践行协会宗旨和核心价值的基础；以章程为纲的规范化管理机制是践行协会宗旨的保障。30年来，科工专协会秉承高水平华人专业组织的定位，以共同的中华文化和面临的共同使命团结广大学人；以成员的高学历和专业化保证协会的专业性和高水平；以高水平的专业年会为代表的活动增强了协会的凝聚力和社会影响力，成为科工专的一张“名片”；而为会员提供专业服务和推动美中交流践行了协会的宗旨和社会责任，提升了协会在美中两国社会的声誉。科工专的这些特质确立了区别于其他社团的定位，经过了30年的培育、传承和发展，基本保持下来，成为我们协会的宝贵精神财富。正是遵循“合作、发展、贡献”的宗旨和高端定位，ACSE在1995年7月28日与芝加哥的旅美专业人士协会实现合并，统一了芝加哥地区的大陆学人组织，成为广大学人合作发展的一个里程碑。事实证明，只有坚持会员高素质、活动高水平、会务专业化的精英定位，协会才对高端人才有吸引力，对广大专业人士有凝聚力，在美、中两国的主流社会有影响力，始终顺应时代，把发展在美学人事业不断推向前进。

协会以章程为纲的严谨、规范的法治系统和严格依规运作是维护团结、推进会务践行协会宗旨的保证。协会章程从协会筹备开始，经过成立大会通过，再经过初期的运作实践，进行了六次修改，保证了协会初创期的快速发展。到协会成立10年时，协会理事会针对协会发展中出现的新问题，于2003年1月12日成立特别委员会，在广大会员包括地区分会的共同努力下，以“合作、发展、贡献”宗旨统一思想，完善了章程和选举制度，制定了协会领导人行为规范，进一步增强了协会的凝聚力，为科工专的健康发展奠定了制度基础。这是科工专历史上又一个意义深远的里程碑。“合作、发展、贡献”的核心价值在协会的活动实践中经受了考验，更加深入人心。三十年来，坚持贯彻以章程为核心的协会“法治”体系，规范运作成为科工专长期健康发展的基石。

“三十而立”。科工专协会走过了初创和成长的30年，已经成熟。科工专的第二个30年不仅要向数以百倍的留学大军展开，还要成为迅速崛起的华二代的合作与发展的平台，增强华人在美国的地位，任重道远！发挥协会的人才优势，坚守协会定位，践行协会宗旨，贯彻法治运作，建立稳固财源是科工专继往开来的根本保证。

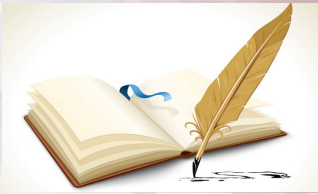

首先，协会要坚守华人专业社团的定位，发挥十几个专业分会的作用，凝聚30年积累的事业有成的华人专业人才，为会员，特别是为年轻华二代学人提供交流和提高的平台，并积极发展与美国主流专业协（学）会的横向合作，提升专业水平，拓展职业空间，推动会员创业；并继续开拓美中两国在适当科技领域的交流与合作。这是科工专能够与时俱进的关键。

同时，协会要坚守美国华人科工专组织的定位，发挥跨州组织的优势，整合各地区分会，把更多的华人专业精英以“合作、发展、贡献”的核心价值观汇聚于ACSE，提升在主流社会的知名度和影响力。

30年来协会取得的成就有赖于数百位协会骨干的无私奉献和对协会的忠诚。而科工专的高水平活动和规范运作也锻炼了一大批杰出领导和骨干成员，是协会的宝贵人才资源。协会要建立一个良性机制，延揽和发挥事业有成的学人在提升协会的专业水平，发展对外交流与合作的作用。

科工专要在第二个30年成长为美国华人的专业精英组织的一个必要条件是稳定的财力支撑。依靠对具体活动的赞助可以维持活动的开展，但是不能规划和成就未来，限制了协会走进主流社会。经过30年的成长，科工专要把建立稳固的财源机制提到议事日程上来！

我作为协会的首任会长，与会员们共同努力，伴随协会走过了30年，分享了友谊，分享了经验，分享了成功。抚今追昔，深知只有合作才能立足，只有奋斗才能进步，只有创新才有未来。科工专的成就，值得骄傲和倍加珍惜！今天，当初飘过太平洋的一叶带着中华文化的基因已经在美国大地生根，科工专协会的历史使命就是浇灌这一片片蕴含着中华文化的落叶在美国大地成长，继续谱写在美的中国学人“合作、发展、贡献”事业的新篇章。

——祝贺美国华人科学家工程师专业人士协会成立三十周年

科工专第十七届会长 第十八、十九届理事会主席 郭海波博士

美国华人科学家工程师专业人士协会（科工专）经过了三十年的风雨历练，依靠自己的努力，不断完善，始终坚持团结奋斗，无私奉献，共同进步，坚定协会的宗旨与发展方向，迎来了它三十周年华诞。三十而立，正如“立”字所表现的那样，不断努力，再接再厉，顶天立地，这不只是责任和历练，也是对未来充满期待，这就是三十年的历程，三十年的辉煌。

科工专是一个志愿的，民间的，非政治，非盈利，在美国伊州注册的专业协会。它有着自己严格的协会法规和工作条例。正是这些不断完善的法定程序，使得协会在过去三十年里能够健康，平稳的交接和过渡。正是有那么多的志愿者，以及他们无私的奉献，使得协会能够后继有人，持续发展。科工专是一个专业协会，凝聚着千百个不同学科、不同专业、不同爱好的专业人士，其中不乏博士硕士等高知人群，他们热爱科学，探究未来世界，在协会的平台里，雨露滋润，丰富自己。老一代科学家给与科工专大力的支持与肯定，早年间协会就荣幸地请到了程津培，丁石孙，Dr. Norman Li，路甬祥，宋健和周光召等为协会的名誉顾问；近年来，又请到了2016年诺贝尔化学奖得主Sir Fraser Stoddart和美国工程院黄永刚院士为协会名誉顾问。

三十年来，科工专始终秉承“合作，发展，贡献”的协会宗旨，积极搭建文化科技交流平台，发挥多元文化的优势，紧系文化交流的纽带，架起科技交流的桥梁，传承民族文化，促进国际交流。2020年第二十八届年会上，面对此起彼伏的疫情，科工专请来了中美防疫专家，共同探讨防疫策略，交流防疫经验，携手比肩，共同抗疫。上海复旦大学附属华山医院感染科主任张文宏教授与美国Rush大学医学中心主任Dr. Omar Lateef就中美防疫经验进行了广泛的交流；为科学家合作抗疫，为人类的健康做出不懈的努力。

协会的发展和进步，离不开会员的支持，协会的中心工作也是围绕着会员展开。科工专经常组织学术研讨会，把握时代脉搏，跟踪科技热点。例如最近的几次讲座有，美国北方信托对冲基金首席量化总监武军辰博士讲的宏观经济形势和疫情后的经济恢复模式；美中西部IOT委员会的主席Don DeLoach做的充满前瞻性的，有关物联网的未来的演讲；在大学任教然后又自主创业的孔晓辉博士则对人工智能的历史发展娓娓道来，对我们当今的人工智能时代对社会带来的机遇和挑战一一陈述。科工专的夏季野餐会是华人的最大盛会，能吸引到千人参加。拜会老朋友，结交新朋友，为会员联谊提供机会。而为协会的可持续性发展，为吸引二代参加协会，科工专数次举办未来职业选择研讨会，“关注青少年发展”系列讲座是科工专服务美国华人社区的活动之一，帮助华人学生更好地了解职场，选择专业。2016年针对纽约梁警官被大陪审团以重罪起诉后，引发华人社区强烈反应，纷纷谴责不公裁决，2月20号北美三十多个城市和地区的华人举行声援梁彼得的同步游行。芝加哥“援梁”大游行在市中心举行，5000多华人怒吼呐喊，声援纽约华裔警察梁彼得（Peter Liang），抗议歧视少数族裔警官，呼吁司法公正。科工专在这次维权游行中起到了主导性的策划和组织作用。

融入主流社会，贡献主流社会，任重道远。不做哑裔，为华裔为会员呐喊，科工专鼓励会员以个人的名义，作为美国公民参政议政，参加区，市，州以及联邦的选举；争取华裔权益，代表华裔利益，行使自己的公民权利。近几年来，越来越多的人投入到竞选，助选的队伍，积极投票支持代表华裔利益的候选人。同时参与社区建设，回报社区，服务社区，在社区里建立良好的形象。2020年全球新冠病毒蔓延全球，美国是继亚洲和欧洲之后也成为全球的重灾区。医院，医疗机构都出现医用防护用品短缺现象，防疫一线告急。为积极帮助抗击疫情，回馈社区，科工专发起捐款倡议，会员们和各界友人奉献爱心，伸出援助之手，很快就捐到两万五千美元。及时的向抗疫一线的医疗机构和老年中心捐赠大批防护服，手套，口罩和捐款等。同时协会也为会员和华人社区发放了上万只口罩和手套，呼吁会员做好个人防护，积极配合社区防疫工作，齐心协力，战胜疫情。

三十年前的初春，一批有志学者，成立了旅美中国科学家工程师协会（现改名为美国华人科学家工程师专业人士协会），为改革开放后来美的学者提供了联系交流的平台。三十年后的今天，落地生根，成为主流社会的一员，美国华人科学家工程师专业人士协会像一颗璀璨的恒星，划破长空，持续发光发热，宣誓着它永恒的宗旨，“合作，发展，贡献”。雄关漫道真如铁，而立迈步从头越。三十年的发展，三十年的奋进，科工专在这期间先后举办几百场活动，为会员摆设了一道又一道交流合作的盛宴。岁月不但留下奋斗的痕迹，还增加了几分成熟。科工专必将在新的起点上，虚心传承光荣历史，自豪地迈向新的征程！

Bridging Two Great Countries

Many ACSE members traveled between US and China to promote the collaborations between two great countries. ACSE has also invited many Chinese delegations to visit the United States, and hosted welcome parties for our guests from China. We believe the frequent visits and exchange of ideas between the people from two sides will greatly improve the relationship of two countries. ACSE and ACSE members have served as the envoy in promoting the collaboration and friendship between US and China.

为了促进中美两个伟大国家之间的合作，许多科工专会员利用其独特的文化和家庭背景经常穿梭在中美之间，同时，科工专还邀请了许多中国代表团来美国访问并为他们举办欢迎晚会。我们相信频繁的访问与交流将极大地改善两国之间的关系。科工专和科工专会员成为了促进中美合作和友谊的使者

命运与共、大道不孤

2020年注定成为人类历史上不平静的一年。进入三月以来，伊州也继纽约和新泽西州之后成为新冠病毒确诊人数第三多的州。一起来帮助我们居住的家园，共同抗击新冠病毒。3月23日，科工专向广大科工专会员和华人同胞发出了捐款倡议，得到各方热烈响应，共收到的捐款\$25,130。

2020年4月29日，汪咏会长、楚非秘书长和陈育兰副秘书长代表科工专分别向出现第一例伊州老年中心COVID-19病人的Willowbrook Cheatu Nursing living 中心和Westmont Manor 老年中心各捐赠价值了\$2,500 的防护服，两个中心都是伊州受灾最重的老年中心之一，急需防护设备。

Keynote Speaker Biography

嘉宾介绍

J. Edward Colgate is a professor of Mechanical Engineering at Northwestern University in Evanston, Illinois. Dr. Colgate's principal research interests are haptic interfaces and human-robot interaction. Dr. Colgate was the founding Editor-in-Chief of the IEEE Transactions on Haptics. He is a member of the National Academy of Engineering, a Fellow of the IEEE and of the National Academy of Inventors, and a member of the Chicago Area Entrepreneurship Hall of Fame. Dr. Colgate was one of the founding co-directors of the Segal Design Institute at Northwestern University where he directed the Master of Science in Engineering Design and Innovation, which combines graduate-level engineering courses with a broad exposure to human-centered design. Colgate and collaborator Michael Peshkin are the inventors of cobots, which led to their first startup together, Cobotics Inc. Their second startup, Kinea Design, developed advanced physical therapy robots and prosthetic limbs. Their third company together, Tanvas Inc., is commercializing innovative surface haptic technologies that allow users to feel tactile effects on a touch screen.

Dr. Yiping W. Han is Professor of Microbiology Sciences (with University Tenure) at Columbia University Irving Medical Center. Dr. Han received BS in Biochemistry from Nanjing University in China, MS and PhD in Microbiology from University of Illinois at Urbana-Champaign, and postdoctoral training at UCLA. Dr. Han is a leader in the field of microbial pathogenesis, host-pathogen interactions, and human microbiome research. She is a trail blazer elucidating the role of oral microbiota in systemic morbidities. She was the first to demonstrate hematogenous translocation of oral bacteria into the pregnant uterus in animals and humans causing pre-term birth and stillbirth. Her laboratory was also the first to report the molecular mechanism by which oral commensal microorganism *Fusobacterium nucleatum* stimulates colorectal cancer. Her laboratory recently discovered a novel mechanism by which a benign commensal organism converts to a virulent pathogen. Dr. Han is an elected fellow of American Academy of Microbiology. She is President-Elect of Anaerobe Society of the Americas and is a board member of Sino-Micro Group. She serves on the editorial boards of several international journals and is an editor for *mBio*, a leading microbiology journal.

Dr. Jonathon Sedgwick joined AbbVie in 2021 as Vice President and Global Head of Discovery Research. In this role, he leads a global team of scientists who work to discover potential new treatments for diseases of high unmet medical need. He is an immunologist whose pioneering contribution to the field was the identification of the dominant biological role of IL-23 as a major driver of autoimmune inflammation, and description of IL-23-driven Th17 CD4+ T cells. This work stimulated the discovery and development of multiple IL-23 and IL-17 focused therapeutics, including risankizumab. Dr. Sedgwick's career includes 10 years in academic research and over 20 years in the biotechnology and biopharma sectors. He was most recently the Senior Vice President and Global Head, Cancer Immunology and Immune Modulation Research at Boehringer Ingelheim where he was responsible for the development of the immuno-oncology discovery and early clinical portfolio, and for immune-modulation research globally covering all therapy areas. He has a Ph.D. in microbiology and immunology from the University of Western Australia and completed his post-doctoral education at the University of Oxford, United Kingdom with Don Mason, Neil Barclay and Alan Williams. He has published over 120 peer-reviewed journal articles and book chapters.

Session 1: Family Education and Youth Development

Dr. Sun Jinai is Associate Professor of Chinese Language and Culture in the Department of Modern and Classical Languages, North Central College, Naperville, IL. She has a doctorate in Education Leadership from the Pennsylvania State University. Since 2013, she has served as the director of the Chinese teacher training and student summer immersion program of the STARTALK program of the U.S. Department of Defense. Her main research areas include American students' motivation and interest in learning Chinese, effective teaching strategies, and the cultivation of cross-cultural communication skills in Chinese language classrooms.

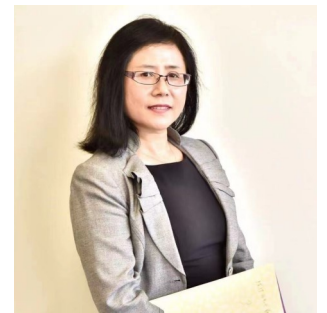

Dr. Ying Zhou received her Bachelor's and Master's degrees in Engineering Mechanics from Dalian University of Technology, and earned her PhD degree in Bridge Engineering from Southwest Jiaotong University. She conducted post-doctoral research at Wuhan University.

Dr. Zhou was an associate professor at Guangzhou University and South China University of Technology ("SCUT"). Dr. Zhou's current research interest is education and development of children and teenagers. She started the "Dr. Zhou Learning Center", which focuses on teaching teenagers communication and leadership skills through reading, writing, thinking, speaking, and debating.

Dr. Nina Ni Liu is a Clinical Professor at Pritzker School of Medicine at the University of Chicago and a Senior Child and Adolescent Psychiatry attending in the Department of Psychiatry and Neurosciences at the Northshore University Health System. She is a board member of Illinois Child and Adolescent Psychiatry Association (ICCAP), and a member of American Association of Child and Adolescent Psychiatry (AACAP). She is the President of American Mental Health Group (AMHG). She serves as an editorial board member of three scientific journals and professional consultant of Midwest Asian Health Association (MAHA).

Dr. Li Ye received her Ph.D. from the University of Illinois at Chicago in 2009 in Curriculum & Instruction. Since 2010, Dr. Ye has been a Chinese instructor in the World Language Division at Adlai E. Stevenson High School (SHS, District 125) at Lincolnshire, IL, which was ranked as the best High School District by the Niche School & District Ranking in 2022.

Dr. Ye taught courses Chinese 1, Chinese 2 Accelerated, Chinese 3 Accelerated, Chinese 4 Accelerated, and AP Chinese Language & Culture at SHS. She has also been a teacher trainer at the Startalk Teacher Program for four years.

Ms. Hua Cheng is a practicing Board Certified Behavior Analyst (BCBA) in Chicago. She obtained a M.S. in Biology from Washington University and a M.S. in Behavior Analysis and Therapy from Southern Illinois University. Currently, Ms. Cheng is employed by a large national organization focusing on autism intervention and rehabilitation for children and young adults.

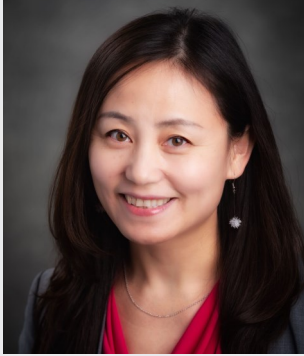

Ms. Cheng has more than 13 years of experience in the field and has worked with many individuals at widely different ages and functioning levels. In her clinical practice, Ms. Cheng is committed to helping families with special needs, using behavioral principles and evidence-based practices to improve children's communication, adaptive skills, social-emotional health, and overall quality of life.

ACSE'S MILESTONE FOR 30TH ANNIVERSARY

STANLEY ZHOU, ACSE President

October 15, 2022

Dear All, Welcome to ACSE 30th annual conference!

The Association of Chinese-American scientists and engineers (ACSE) has hosted annual conference every year since the organization's inception in 1992. We are celebrating our 30th anniversary this year and proud to follow our tradition today with another set of exciting programs that we are sure you will enjoy. The theme of this year's conference is "How Emerging Technologies will reshape our lives". Our keynote speakers are Prof. Edward J. Colgate, member, National Academy of Engineering Fellow, Northwest University; Prof. Yiping Han, Fellow, American Academy of Microbiology; Dr. Jonathon Sedgwick, Vice President and Global Head Discovery Research from AbbVie company. Today's program covers the latest technologies in Mechanical Engineering, Health Care and Pharmaceutical fields. The keynote speakers will share their research and progresses on those areas, and how the applications of those technologies will change and impact our lives.

One of ACSE missions is to serve our members and local community, and we fulfilled our mission even during the pandemic. Past two years, people experienced lockdown, work from home and social distance and those protection measures caused inconveniences to people's lives. But it created an opportunity for ACSE, that is Online Seminar. ACSE hosted over 14 different seminars in the period of 12 months and that number is 4 times of the average number of seminars ACSE hosted per year in the past, and the topics of those seminars revolved around three areas: education, investment, and health care. ACSE leveraged its network to invite leading Scientists, Researchers and Doctors from both China and US as speakers for those seminars. Those seminars created an education and learning platform to serve our members and local Chinese community, and those seminars attracted many audiences and received very positive feedback.

During Pandemic, ACSE kept its tradition of hosting ACSE spring festival Gala and annual conference, but all online. In addition to online activities, we also formed a youth leadership department in April 2021, and it teaches and coaches students on leadership skills and creates opportunities for student to practice those skills.

ACSE is fully aware of its social responsibilities. No matter where nature disasters happen, in US or China, ACSE always stands up to help. Last two years, ACSE donation money helped victims in ZhenZhou, China, and victims in Sichuan, China. ACSE also donated PPE to local hospitals in Chicago Land during pandemic.

A long list of missions was accomplished in last two years, I don't want to go over one by one here. I am very proud and honored to serve as the 29th president of ACSE to lead ACSE versatile and highly capable working team to carry out difference missions and to overcome the challenges we faced.

That being said, none of the activities could have been successful without the hard work of ACSE working team and the generous support from sponsors and collaborating organizations. We are sincerely grateful for all their ongoing help and support to ACSE and its growing association and community events.

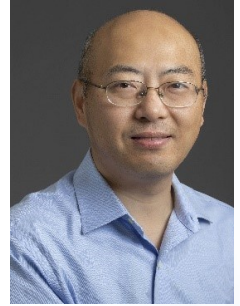

We are confident that you will find today's programs informative, rewarding and exhilarating. We have been looking forward to this day with great anticipation, so let's get started. Enjoy the day!

FACING NEW OPPORTUNITIES AND CHALLENGES WITH CONFIDENCE

FEI CHU, President-elect of ACSE

October 15, 2022

Dear distinguished Guests, Speakers, Sponsors, ACSE Members, and Friends,

Welcome to the 30th annual conference of the Association of Chinese-American Scientists and Engineers (ACSE).

As I stand here today, I feel extremely honored to address you as the new president of ACSE. I sincerely thank all our members for their trust and support to give me such a prestigious opportunity to serve this great organization. Please allow me to express my great appreciation to all advisors, Board of Directors, ACSE previous presidents, working team members, sponsors and volunteers, I cannot imagine ACSE would become such a successful and professional organization without your contributions over the past 30 years. Please also join me to thank all the conference organizing committee, sponsors and volunteers who make today's event happen! Last, but not the least, I would like to thank Dr. Jiangang Zhou, the preceding president, and Ms. Xiaolin Xiao, the preceding Chairman of Board of Directors, for their strong support to make the transition extremely smooth.

Three decades ago, ACSE's visionary founding members paved the path along with the principles of "Cooperation, Development, and Contribution". Since then, the spirits of these principles have been integrated into ACSE's DNA by all the selfless dedication and tireless efforts from our strong leaders and fellow members. ACSE is becoming one of the largest and most influential Chinese-American professional organizations in United States! In this challenging yet exciting time, I strongly believe our founding principles are still highly relevant and should guide and shape our future endeavors, we should continue to strive to fully realize these principles.

Today, stand by the 30 year's milestone, I deeply feel the heavy duties and expectations on my shoulder, it is a big challenge for me to carry the tradition and momentum to build an even stronger ACSE. As the newly elected president, with your full support, I will focus on working in the following areas in my term:

First, under the new era of the challenging Sino-America relationship, we should focus on protecting and educating our members in the areas of effectively serving our community and contributing to mainstream society. We need to continue to support the activities of our professional societies and to strengthen our relationship with other related professional organizations to achieve the mutual benefits for members.

Second, financial stability and independence would always be crucial to the long-term prosperity of our association, no organization is sustainable without a steady financial foundation, we will continue forming strategic partnerships with surrounding business communities and seeking sponsorships from them. ACSE will also continue to develop herself into a new level of prominence and recognition as the professional association in the US and China.

Third, ACSE has organized many major events in the United States of America and China to build platforms and bridges facilitating the exchange between US and China, and between members and non-members in the areas of sciences, technology, culture, economics, and business. With the ever growing Chinese-American community in the United States of America and ever increasing economic ties between China and USA, ACSE will play an even more important role as a community leader and strong advocate in promoting the cooperation between US and China, and in building a strong Chinese-American community to contribute to the mainstream value and societal development.

Forth, we will strive to maintain a balancing and collaboration atmosphere within ACSE, and build a strong and high efficiency working team. I am especially proud that the ACSE working team is comprised of many skillful and talent individuals with various technical backgrounds. Most importantly, all of them have the willingness of serving our community. They are the cornerstones of this organization. A vibrant and sustainable organization cannot exist or sustain without the involvement of its members. I would encourage our members to contribute to the growth of this organization and take part in the daily operation of this organization.

Fifth, we will promote ACSE to attract more and more young talented and energetic members into ACSE by providing opportunities for their participating. ACSE is an unparalleled platform for them to practice social skills, accumulate service experience, build professional networks, and seek career development advice. For example, the longtime Career Development theme in afternoon session will bring industry leaders and successful individuals to help or coach younger people who are in the earlier stage of their career, and hopefully to help them success in the future. ACSE will also benefit from their insights and achievements.

Finally, we will work with schools and parents to foster the spirit of volunteering and inspire an interest in science and technology within the next generation of Chinese-American students. Our planned "ACSE Youth Charter" will be more focused on child education and training of our next generations, so that they can become skillful and responsible individuals to the American society.

Today, we stand on a historical starting point, there are more challenges yet more opportunities in front of us, we need each of you to help lead the association to the next level, I strongly believe that with the great effort of our members, ACSE will continue to grow and develop. Let's work together to start a new chapter-for a more prosperity and brighter future of ACSE, we are not only witnessing the history, but making the history.

Thank you very much for your time and please enjoy the rest of our program!

美国华人科学家工程师专业人士协会成立 30 周年贺信

尊敬的周建刚会长，肖小林理事长，

美国华人科学家工程师专业人士协会（科工专）做为全美最大，最有影响力的华人专业组织，30年来，秉承合作，发展与贡献的理念，积极组织各种专业交流，促进华人专业人士之间，以及华人专业人士和主流社会的合作，已经成为华人专业人士不可或缺的重要平台。

科工专和瑞华中文学校几乎同时成立，又都活跃在大芝加哥地区，30年来，两个组织互相支持，结下了深厚的友谊！瑞华几乎每年都赞助，积极参加科工专年会，科工专也对瑞华举办的各种文化活动给予了大力支持。

金秋硕果之际，恰逢美国华人科学家工程师专业人士协会和瑞华中文学校成立三十周年，由“少年时代”步入“青年时代”。祝我们兄弟组织在未来一如既往、精诚合作、互相支持，在各自专业领域继续发光添彩，共同服务美国华人社区、促进中美交流、增进中美友谊。

预祝贵会三十周年庆典圆满成功！

技术简介

Technology Introduction

公司核心专有技术是张伯科博士发明的纳米透皮吸收专利技术平台 (MLNTD®)，在不改变分子结构的前提下，创建了与细胞结构相类似的多层多相纳米细胞粒体系 (MLNTD®-NC)，纳米细胞粒所特有的纳米量子隧道效应 (MLNTD®-NQT) 能快速穿透皮肤和组织，将其携带的有效成分层层递送、逐级释放到达细胞内，从根本上解决了生物活性大分子难以透皮吸收的国际难题。

将传统的口服给药、注射给药途径，改变为经皮肤快速、高效吸收的外用涂抹方式，具有局部足量给药、减少药物剂量、避免药物肝脏首过效应对胃、肠、肝、肾及内脏的副作用等独特优点。

The Association of Chinese American Scientists and Engineers (ACSE) (<http://www.acse.org>) is one of the largest Chinese American professional associations in the United States of America. Founded in 1992, ACSE is a not-for-profit and non-political professional organization headquartered in Schaumburg, Illinois with regional chapters in over 30 states. ACSE has 18 local chapters and 16 professional societies including Telecommunications, Chemistry & Chemical Engineering, Pharmaceuticals, Mechanical Engineering, Medical Sciences, Computer Sciences, Industrial and Applied Mathematics, Energy and Environment Protection, Biotechnology, Intelligent Transportation Systems, Business Administration, Finance, Law, Entrepreneurship, and the newly formed Big Data/AI. The association currently has several thousand active members, and more than 90 percent of its members hold Ph.D. or master's degrees.

Abiding by its principle of “Cooperation, Development and Contribution”, ACSE has organized many major events in the United States of America and China to build platforms and bridges facilitating the exchange between US and China, and between members and non-members in the areas of sciences, technology, culture, economics, and business. These events include conferences, annual conventions, job fairs, business promotion events, and seminars on education and career development as well as cultural differences between USA and China, etc. These events served ACSE members and the communities well. All the efforts and achievements of ACSE have been applauded by senior governmental officials and prominent leaders from both countries. The first US ambassador to China, Mr. Woodcock, former US Secretary of Defense, Mr. William Cohen, former Chinese Ambassador to US, Mr. Daoyu Li, Vice Minister of Commerce of China, Jian Yaoping and Fu Ziyang, and dozens of prominent leaders in industry, academic, business, and government were invited to these events.

The theme for this year conference is “How Emerging technologies will reshape our lives” and the keynote speakers are Prof. Colgate, member of National Academy of Engineering, from Northwest University, Dr. Yiping Han from Columbia University Medical Center, VP Dr. Jonathon Sedgewick from AbbVie Company.

The success of ACSE attributes to the contributions from all ACSE members to the supports from the societies and communities. ACSE greatly appreciates and thanks all individuals, companies, organizations and governmental departments for their support and contributions.

ACSE is actively seeking sponsorships from corporate and individuals in China and US to support its future activities. That includes but is not limited to its annual conference, seminars on job training and career development, talent acquisition and job fair, promotion on cultural diversity and community service. As an IRS certified 501 (c) (3) non-for-profit organization, ACSE is eligible to receive tax deductible donations.

If you are interested in sponsoring ACSE, please fill out the form in the next page and email or mail it to us. If you have any questions, please feel free to contact Mr. Stanley Zhou (Tel 773-590-6427, stanley.zhou@acse.org) or Ms. Minna Xiao (Tel 847-736-7523, minna.xiao@acse.org).
